

Where can you get what in Buenos Aires?

Notice:

San Isidro, San Fernando, Victoria and Tigre are suburbs of Buenos Aires (= Capital) placed along the banks of Rio Luján. Most of the marinas and yate clubs of BAires are concentrated at the Rio Luján.

The majority of interesting toolshops and shops with lots of technical equipment you will find in **Avenida Cazon, Tigre.**

Headlines in alphabetic order, except the last two items.

Aluminium-welding works

Salvatierra

Av. Tiscornia 923
San Isidro
(011) 4747-9365

we have heard that he owns a mobile welding machine but we have no experiences
